DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

In claim 2, the last line, change "said forth end portion" to --said fourth end portion--.

This change was made to correct the typographical error.

Allowable Subject Matter

2. Claims 1-7 are allowed.

The following is an examiner's statement of reasons for allowance:

In claim 1, the patent to Ollikainen et al (6,552,686) discloses a conductive plate, a main antenna element located parallel to the conductive plate and having first and second end portions extending in perpendicular to each other, the first end portion providing a feed point, and second end portion forming an open end, a parasitic line antenna element located parallel to the conductive plate and having third and fourth end portions. However, the patent to Ollikainen et al fails to teach the third portion and the fourth portions separated by a middle portion that is greater than either the third end portion or the fourth portion, and wherein the first portion is arranged adjacent only one of the third end portion and the fourth end portion.

3. Claim 7 is depending on claim 1.

4. The reason for allowable subject matter of claims 2-6 have been provided in the previous action.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled " Comments on Statement of Reasons for Allowance."
